

SMRT Marketing

One Price, One Team, One Platform

Marketing Department · August 2026

THE MOVE

Build in-app marketing — **Campaigns, Broadcasts, Reviews** — into every station's price. Every customer gets marketing, revenue grows, and outside agencies lose their opening. Matches the BubblePay / SMRT Lite motion. **Two lanes by design:** the in-app software **merges into the POS** (platform revenue); the department's own P&L becomes the **services lane** — Social, Websites, Ads, Expertise Marketing — financially separate, growing on its own numbers.

WHY NOW

SMRT runs **5,688 stations**; only **1,227 (22%) are on SMRT Marketing**. The other 78% run no marketing or pay outside providers. Bundling flips that to **100%** — a strategic move to push out **Magnoli** and **Cleaner Marketing**. Magnoli lists our lack of included marketing as one of their selling points; this takes that away.

TIER 1 · REVENUE — ONE PRICE PER STATION, MARKETING INCLUDED

Station price	Add-on	Marketing revenue	Increase
\$84	+\$14	\$79.6K/mo	+18% (+\$146K/yr)
\$85	+\$15	\$85.3K/mo	+26% (+\$214K/yr)
\$86	+\$16	\$91.0K/mo	+35% (+\$282K/yr)
\$87	+\$17	\$96.7K/mo	+43% (+\$351K/yr)
\$88	+\$18	\$102.4K/mo	+52% (+\$419K/yr)
\$89	+\$19	\$108.1K/mo	+60% (+\$487K/yr)
\$90	+\$20	\$113.8K/mo	+69% (+\$555K/yr)

Today: \$67.5K/mo from 99 customers; retire 20+ marketing SKUs into one line item.

Every \$1 = \$68K/yr. No attach risk — every station is included.

Current marketing customers pay an effective **\$55/station** — **92 of 97 see their bill drop even at +\$20.**

Even at \$90 all-in **we win on price** against agencies and CleanCloud-class bundles.

TIER 2 · TEAM — SUPPORT ANSWERS QUESTIONS, WE SELL OUTCOMES

Support + Learning Center	Daily how-to questions move to SMRT Support, backed by the guide library already underway.
Tony	Maintain SMRT Ads and grow its customer base first; then SMRT's external efforts (shows, booths, layouts, handouts), sales support, and Marketing for SMRT — growing SMRT Marketing.
Jason	Multi-product: marketing support lead (tier 2/3 escalation), SMRT Websites, and SMRT design work — deep design / 3D expertise.
Dayana	SMRT Social + creative/design; role expands as the team grows.
New revenue — Expertise Marketing	Billable build-and-do work (the model Mike and other experts use): paid onboarding, campaign builds, \$100/hr sessions, managed plans. Managed services grow \$9.5K → \$34K/mo in 12 months.

TIER 3 · PRODUCT — MAKE THE BUNDLE UNBEATABLE

Q1	Day-1 needs for the price change: sending safeguards (quiet hours, frequency caps), SMS cost tracker, SMS template library (email library exists), pre-loaded campaigns, per-station ROI dashboard.
Q2	Google Business Profile analytics · referral system.
Q3	Facebook/Yelp review capture · website analytics on SMRT Sites.
Q4	Google/Meta/LinkedIn ads analytics · visual journey builder (POS-driven — no agency or competitor can copy it).
Ongoing	RCS messaging (testing in-house now): flat cost — 1 segment includes images, emoji, rich text vs ballooning SMS/MMS segment costs. Rolled out customer by customer (per-instance setup); verified branded sender.

12-MONTH PICTURE · Platform lane (in-app) **\$67.5K → \$80–114K/mo** · Services lane (dept P&L) **\$9.5K → \$34K/mo**
100% of stations marketing-enabled — Cleaner Marketing, Magnoli, and outside agencies pushed out
